

Well, we at Mountain Ridge ATV Park (aka The Mountain) have survived the construction effort of 36 windmills on the Mountain and adjacent properties covering a little over 4,000 acres. Take a look at some of the pictures we have posted on our web site of the construction effort and of the finished windmills just hankering to begin turning. The startup date for the windmills is sometime between now and the end of November. Construction efforts are now concentrating on cleanup activities, re-seeding, etc. When the windmills start turning we will be part of the largest windmill farm in Pennsylvania. Our ATV Park will be unique in that you will be able to ride among the windmills – something out of a “Don Quixote” dream come true.

We have heard from many of our past riders and patrons who have been asking constantly “when will you be open...” So to dispel the rumors that we are closing the park, please know our plans are to spend the fall and winter months re-tooling the ATV park with upgrades to the camping area, building a shower house, installing an RV dump station, fixing and upgrading existing trails and tracks, and cutting new trails. We are planning on opening again in the spring – probably on Sat. April 3rd and then only on the weekends until Memorial Day when we begin our summer hours, then on the weekends again after Labor Day.....

As we mentioned above, we are developing 50 campsites with electric hook-ups along with a shower house. We would like to lease out the 50 campsites for the season, on a first come first serve basis, so if you are interested give us a call and we will send you a lease. Our plans are to eventually build 200 campsites with an eye to leasing those campsites on a seasonal basis.

One thing we want everyone to know upfront – we want our ATV Park to be family oriented. With this in mind we are developing rules for the park and campground area that will be oriented to provide a family atmosphere. Loud and drunken behavior will not be tolerated in the future at anytime of the day. If you can't handle your alcohol – don't drink it, and of course illegal drugs are never welcome on our property. We will enforce our rules strictly.

We are moving forward and are looking forward to a great 2010 season. It has been a long year which we are glad is almost over so we can again become the ATV Park of destination in on the east coast. We can't wait to see all of you again.....
